

How to setup Norton Internet Security 2007

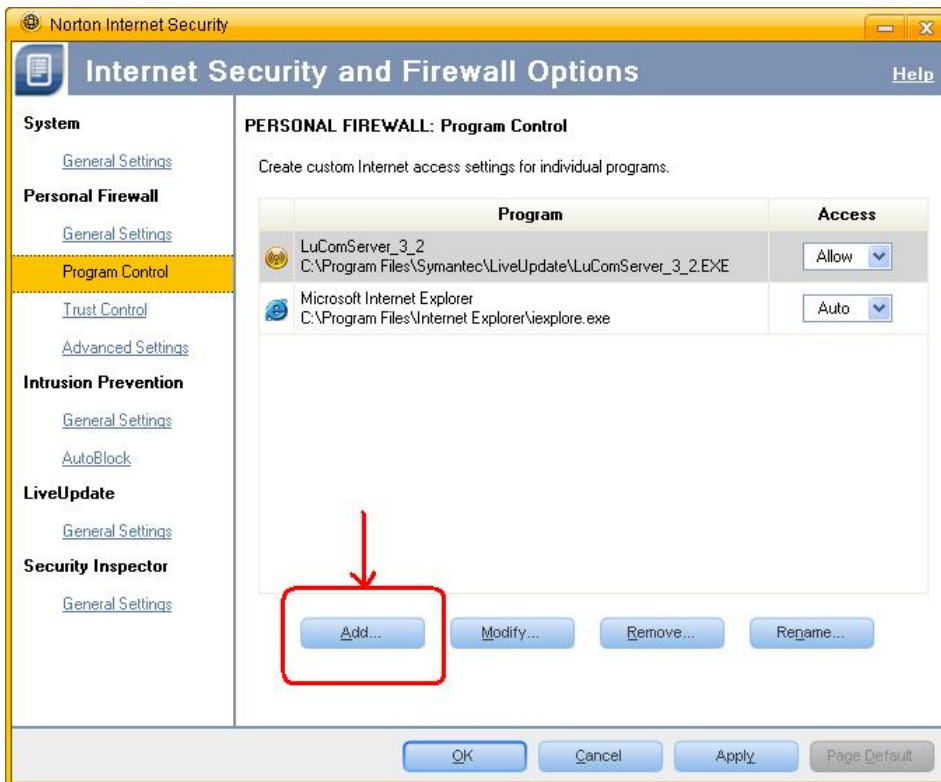

1. Right click the Norton Icon→ choose **Open Norton Protection Center** and click on **Norton Internet Security**.
2. Under **Settings** → **Web Browsing** click on **Personal Firewall**:

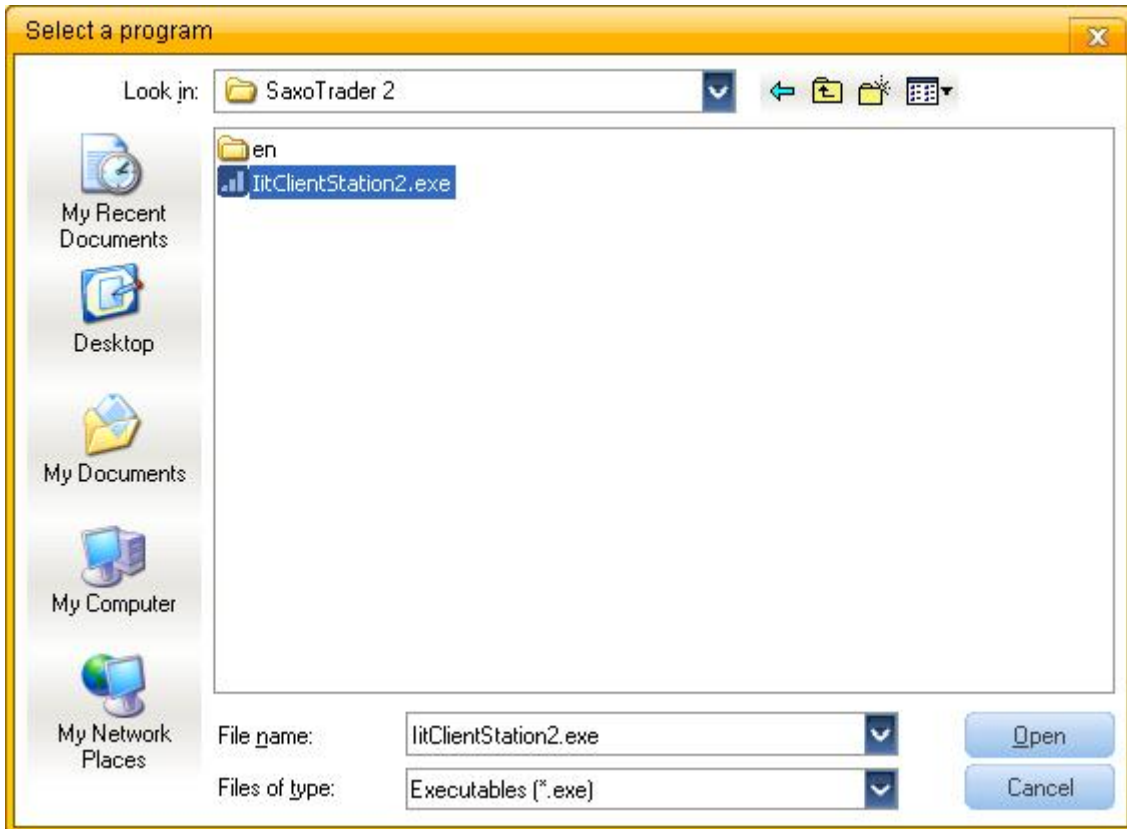

3. Click **Configure**:

4. Under the **Program Control**, click **Add**:

5. Browse to the installation folder, typically at **C:\Program Files\Saxo Bank\SaxoTrader 2**, and select the application “**IitClientStation2.exe**”

6. Set the permission to **Allow** and press OK:
